ARRIVAL OF STEAMER FRANKLIN.

6 days later from Europe. New York, March 23, 1851.—The stee Franklin left Cowes on the 8th March, at 1 o'clock 30 min. p. m. On the 9th, at 9 a. m., she passed the U. S. Mail steamer Washington, off Sleepy Island. The Washington was bound for Southampton.

The accounts of the Kaffir war are fully corroborated.

A fair business doing in the manufacturing districts, but the ‡d. advance in cotton had not been maintained.

The Duke of Wellington recommended the recall of Lord John Russell, together with his associates, to the Ministry, on account of the inability of Lord Stanley to form a protectionist Ministry. The whig Premier has therefore again resumed the reins of power, and no al-teration in the construction of the cabinet was fikely to take place.

The Papal Aggression bill was to undergo

various modifications. A new budget was to be brought forward, and it is probable Sir James Graham, Lord Aberdeen, and others, will form

a cabinet with the ministry.

The British Government has provided a fund to defray the expenses, passage, &c. to America, of two hundred and sixty-two Hungarian exiles, just arrived from Turkey.

RUSSIA.

The Emperor of Russia has presented the King of Prussia with a chain of the cross of St. Andrew, a thing never before conferred out of the imperial family. It is valued at one million of ducata.

ARRIVAL OF STEAMER ARCTIC.

1 day later from Europe.

New York, March 23.—The American mail steamship Arctic arrived here at eight o'clock this morning. She left Liverpool on the 8th inst. During her first night out, while in the English Channel, she was run into by a large ship, and sustained some slight damage, which detained her a short time, and this was instrumental in prolonging her passage.

FRANCE.

The Assembly met on Monday. In the bureau to examine the budget for 1852, it was discovered that the assimilation of the floating debt has increased it to the sum of seventy-one millions francs within the past year. This afforded a subject of general conversation and apprehension in the political circles. Various suggestions were made for means to increase the receipts. This having been made known, it had considerable effect on the Paris bourse. Seventy-fives were selling at 94f. 24c., and sev-

The election of United States Senator had not taken place, but the 17th of February was the time fixed for a trial. T. Butler King, esq., and Col. Fremont were the two candidates on whom it was thought the contest would narrow down. The Pacific News claims a Democratic majority of four, and

says: "The Democracy do not show their usual cohesion, and upon this showing Mr. King has much hope. A good deal of doubt hangs over the matter, in spite of appearances."

Business was dull at San Francisco.

REAL ESTATE IN VIRGINIA FOR SALE.

THE subscriber has not yet disposed of his real estate in Prince William county, Virginia. He is still desirous of selling, and will do so on accommodating terms. It consists, first, of 947 acres of land, in from two and a half to four miles of Brentsville, the county town, fourteen miles of Occoquan, thirty miles of Alexandria, and from four to five miles of the Orange and Alexandria Railroad, which will be completed to Brentsville this year. This land is well adapted to the growth of wheat, corn, rye, oats, and grass. It is a mixture of the red and grey soil, and admirably adapted to improvement by the use of clover, plaster, guano, &c. It is heavily timbered, and finely watered, having lasting springs of the purest water. It is capable of being divided into five or six good sized farms, and with tolerable buildings and small orchards on four of them. I will sell it all in a body to a company, or will divide it to suit purchasers, at prices ranging, according to quality, at from \$\frac{1}{2}\$ to \$\frac{1}{2}\$ per acre. I will only require one-fourth of the purchase money in hand, and the balance I will divide in three annual payments, to bear interest from the date of sale, to be secured on the property. Land is rapidly rising in value in the neighborhood, and I offer great inducements now, as I wish to turn my attention to other pursuits.

Secondly. A square of buildings in the town of Brentsville, suitable for a carriage-maker, wheelwright, or blacksmith, carriage, and wheelwright shops, and other necessary buildings. \$1600 is now my price for this property—on the same terms as the land. It is within a mile and three-quarters of the railroad.

Thirdly. Nine and a quarter acres of land on the turn-pike, just above Buckland, on which are a good twern stand, and the shop a good stable. For this property I will take \$500—on the same terms.

Fourthly. A lease lot in the village of Buckland, known as the tan-yard lot, on which there is a comfortable house and kitche—lot enclosed

terms. Yeifthly. A lease lot in Haymarket, with a pretty good house, kitchen, a large shoemaker's shop, stable, &c. The buildings are a little out of order. The lease may run for ten or twelve years. For this I will take \$100.

Sixthly. A valuable farm in Alleghany county, Maryland, containing 200 acres, within eight miles of the National Read, and ten to twelve miles of the Baltimore and Ohio Railroad. This farm is in a thriving neighborhood, is heavily timbered, has a good and never-failing stream of water running through it, and several mill-seate; abounds in iron ore and coal; has a fine sugar maple orchard on it, and a mineral spring, which I think equal to the White Sulphur or Bedford, and has now some forty or fifty acres of the land cleared. The soil is not surpassed by any in the country. I am disposed now to take \$4 per acre for it. Mr. Abraham Steel, who lives near it, will show it to any one wishing to purchase. The property in Prince William country, Virginia, will be shown by Eppa. Hunter, esq., who is authorized to sell; or by Mr. Edwin W. Latimer, or Mr. Robert Hodgkin. I shall be in Brents-wille about the middle of May, and will, in person, show the property to any one wishing to purchase.

FURNISHING MAIL LOCKS & KEYS.

FURNISHING MAIL LOCKS & KEYS.

Post Office Department, March 14, 1851.

It being desirable to substitute locks and keys of some other kind for those now in use for the mail service of the United States, specimen locks and keys, with proposals to furnish the same, will be received and considered at the Post Office Department until the first day of July next. The different locks will be submitted to a commission for examination and report. Upon this report, contracts will, as soon as practicable, be entered into for furnishing such locks and keys for four years, with the right on the part of the Postmaster General, for the time being, to extend and continue the contract in force for an additional term of four years, by giving to the contractor a written notice to that effect, not more than nine nor less than six months before the termination of the first term of four years.

With a view of procuring the best lock at the lowest price, no kind of lock is prescribed as a standard, the Department relying for a selection on the mechanical skill and ingenuity which a fair competition, now invited, may develop. It is, however, proper to state that a lock suitable for the mail service should possess the following qualities, viz: durability, uniformity, lightness, and strength.

For the purpose of displacing simultaneously all the mail locks and keys now in use, about thirty thousand new locks and twenty thousand keys subapted thereto will be required to be furnished by the contractor within seven menths after the contract shall have been entered into afterwards the annual supply will depend on the durability of the locks and keys adopted, as well as the in-

new locks and twenty thousand keyswhapted thereto will be required to be furnished by the contractor within seven menths after the contract shall have been entered into: afterwards the annual supply will depend on the durability of the locks and keys adopted, as well as the increase of the mail service; but it will probably never exceed in amount three thousand of the former and one thousand of the locks will be considered if it be like any already in general use; nor will any one with whom the contract may be made be allowed to make, sell, or furnish, any lock or key similar to those contracted for for any other purpose or use than that of the Post Office Department.

The kind of lock adopted must be patented, and the patentes will be required, on entering into contract, to make an assignment of his patent for the exclusive use and benefit of the Department, if the Postmaster General shall deem such requirement essential to the interests of the service. In case of the failure of the contractor at any time to fulfil faithfully the terms and conditions of his contract, the Postmaster Egueral shall have the right, besides a resort to the penal remedy hereinafter mentioned, to annul said contract, and to contract anew with any other party or parties as he may see fit, for furnishing similar locks and keys.

In decking upon the proposals and specimens offered, the Postmaster General may deem it expedient to select for the through mails the lock of one bidder, and for the way mails that of another. He reserves, therefore, the right of contracting with different individuals for such different kinds of locks as he may seelect, and also the right to reject all the specimens and proposals, if he shall deem that course for the interest of the Department. The party or parties contracting will be required to give bond, with ample security. In the sum of thirty thousand doliars, for a faithful performance of the contract. The contract is to contain provisions for the dae and proper inspection of the locks and keys, and also

N. K. HALL.

AMERICAN HOUSE, Hanover street, Boston. THE Undersigned having entirely rebuilt and en-larged the above extensive establishment, contain-ing in all about three hundred and fifty rooms; would respectfully give notice that it is now ready for the reception and accommodation of the travelling commu-

reception and accommodation of the travelling community.

An extended notice of the unsurpassed conveniences of this House is deemed superfluous, as the numerous improvements which have been made cannot be properly given in an advertisement. Suffice it to say that no expense has been spared to render any apartment perfect. The furniture was made expressly to order, regardless of cost, and certain portions of it, especially the Drawingrooms, will be found to be of the most beautiful and fasteful manufacture. The Diningrooms are espacious, and the hours for meals will be so arranged as to suit the convenience of the early and late.

Every department will be conducted in an unexceptionable manner, and the Proprietor pledges himself that the American House shall be truly the Traveller's Homemar 24.

Austin's Magic Freezer, Through in six minutes. For the preparation of Ice Creams, Water Ices, &c.—Patented September 19, 1848

Ice Creams, Water Ices, &c.—Patented September 19, 1848.

THE distinguising merits of this Apparatus are—

1st. The astonishing rapidity of the process, surpassing belief—hence the name.

2d. The Cream during the progress of freezing becomes charged with atmospheric air, by which it nearly doubles in bulk, and obtains that peculiar smoothness, lightness, and delicacy of flavor, for which the Ice Cream of our best Confectioners is so highly prized.

2d. It does not require a teuth part of the labor that the common Freezer does.

4th. It does its work better, producing a better article, in every respect, than by flay other mode.

5th. There is a considerable saving in ice, as the tub in needs no replenishing during the operation.

The annexed testimonial from the Proprietor of the Eutaw House will put to rest all doubt.

"Having witnessed the process of freezing Ice Cream in Austin's Magic Freezer, two quarts of Cream having been frozen in the incredible short time of six rainutes, i cheerfully recommend it to the public."

H. F. JACKSON,

Eutaw House, Baltimore, May 15, 1848.

"This is to certify, that during the summer of 1848, I used one of Austin's Patent Ice Cream Freezers of the largest size, (10 gallons) making from 10 to 50 gallons per day during the senson; and so far a regards expedition and power. I consider it decidedly the best freezer mow in use, as I have had with it no difficulty in making ten gallons of superior quality Ice Cream from five of plain Cream, in thirty minutes from the time I commenced working it.
